LLL Parent and Caregiver Survey (Available from 12 to 30 October 2026)

Dear Parents and Caregivers,

You are invited to participate in a short survey (approximately 3–5 minutes) about your school's performance. Similar surveys are also completed by students and staff, providing a valuable snapshot of the school community. The information collected will be used to support ongoing school improvement.

Your Privacy and Confidentiality

Your participation is voluntary, and all responses will be treated confidentially. To protect your privacy, the survey is anonymous. Responses are submitted directly to National School Improvement Partnerships (NSI) for analysis and reporting. Individual responses are not shared with the school. Survey findings are reported to the school in aggregated form only, and results are not reported for groups containing fewer than four respondents.

How the Data Will Be Used

Anonymous demographic information may be used to provide more detailed reporting and help schools better understand the experiences of different groups within their community.

Aggregated and anonymous data may also be provided to the Catholic Education South Australia (CESA) Office to inform system-level reporting and support school improvement initiatives.

Completing the Survey

- Responses range from 1 (lowest rating) to 6 (highest rating).
- For each statement, please rate how well you believe the school is performing by selecting one of the six response options.
- Some statements may appear similar. This is intentional and helps provide a comprehensive understanding of different aspects of school life.
- If you have more than one child enrolled at the school, please respond with your oldest child's experience in mind.
- There are no right or wrong answers. We are interested in your honest views and experiences.
- Please respond to all survey items.
